Architectural Resources

about

Michael David Robinson, serves as our Design Principal, where he has sustained our creative excellence since 1995. Michael originated from Chicago where he earned his Bachelor of Science in Architecture from Illinois Institute of Technology. Licensed in 16 states, his influence by modernist principles are often reflected in his work today. With well over 33 years to the field of architecture, Michael’s portfolio of local, regional, and international projects are recognized for his dedication and contribution to outstanding design.

American Institute of Architects
LEED AP
ULI: Urban Land Institute

Alex Arie, serves as our Project Management Principal responsible for the development and completion of all scheduled projects. Alex joined RHA in 1998, and has been a key contributing factor in the firm’s growth. His experience, ranging from award winning boutique retail projects to national rollouts and large scale mixed use developments, has brought a unique combination of technical expertise and design vision. Alex’s hands-on leadership style with unmatched energy and enthusiasm, facilitate a consistent service oriented project delivery process, focused on client needs.

Education: Bachelor of Architecture
University of Southern California

John Steven Hill, serves as Managing Principal and is responsible for business development and operations. Joining Michael in 1997, he assisted in the growth and development of RHA for more than the last 16 years. John is a native Southern Californian, where he earned his Bachelor of Architecture degree from California Polytechnic State University in San Luis Obispo. John has worked in the region well over 30 years, and is licensed in 6 states. His leadership skills are exemplified by the ability to manage large and complex projects that are appropriate within their context and community.
